PRHA Portsmouth Rotary Housing Association

POST BED BUG TREATMENT

Please follow these important steps to help the treatment work effectively

The treatment has been carried out to eliminate bed bugs in your flat.
Your cooperation is essential to ensure it is successful.
Please follow the guidance below.

1. DO NOT ENTER YOUR FLAT WITHIN 24 HOURS

- Please do not enter your flat for 24 hours after treatment to allow the treatment to take full effect and ensure your safety.

2. DO NOT HOOVER FOR THE FIRST 2 WEEKS

- Do not hoover carpets, floors, or furniture for the first 2 weeks. Vacuuming can remove the treatment and reduce its effectiveness.

3. DO NOT SPRAY ANYTHING FOR THE FIRST 2 WEEKS

- Do not use any sprays, cleaning products, or pesticides for 2 weeks unless advised by the pest control team. This can interfere with the treatment.

4. KEEP WINDOWS CLOSED

- Keep windows closed for at least 2 hours after treatment. After this, you can open windows for ventilation as normal.

5. WASH CLOTHING & BEDDING AS NORMAL

- You can wash clothes and bedding as usual. Continue on a hot wash (60°C or above) and dry on high heat where possible.

6. MONITOR & REPORT

- It may take several weeks to see results.
- If you continue to see signs of bed bugs after 2–3 weeks, please contact us.
- Do not attempt to treat again yourself.

The treatment takes time to work. Please be patient and follow the guidance above.

IMPORTANT REMINDERS

- ✓ Do not enter your flat within 24 hours
- ✓ Do not hoover for the first 2 weeks
- ✓ Do not spray anything for the first 2 weeks
- ✓ Follow all advice to ensure the treatment works
